

## **About this booklet**

This is a pocket record of things one senator has said, in public, on the record. Nothing here is paraphrased. Each quotation carries its source so you can check it yourself.

## FOREWORD

### **How to use this book**

Read one page while the train pulls out. Read the source line under it. If a quotation surprises you, look it up — the citation is there for exactly that reason.

## CHAPTER 1

# **On Wages and Penalty Rates**

What she has said about what your hours are worth.

**I have heard, from people coming through my office, that the Australian people do not want the penalty rates cut. I will support what the people want. Over 75 per cent do not want the penalty rates cut, and I support that.**

## CHAPTER 2

# **On Unions and the Right to Organise**

What she has said about the organisations that won the weekend.

## ON UNIONS

**In the past 30 years, trade union membership has fallen from more than 40 per cent of all Australian workers to less than 13 per cent, yet over the years the unions have used their Labor puppets to force union membership on people who don't need or want it. They don't do this to look after workers' rights — no-one believes that nonsense anymore.**

## CHAPTER 3

# **On Immigration and Race**

What she has said about who counts as Australian.

## ON RACE

**I believe we are in danger of being swamped by Asians. Between 1984 and 1995, 40 per cent of all migrants coming into this country were of Asian origin. They have their own culture and religion, form ghettos and do not assimilate.**

ON RACE

**We are in danger of being swamped by Muslims who bear a culture and ideology that is incompatible with our own.**

ON RACE

**I and most Australians want  
our immigration policy  
radically reviewed and that  
of multiculturalism  
abolished.**

House of Representatives Hansard, 10 September 1996

## ON RACE

**I was right about immigration and multiculturalism in 1996. Everything I warned about has come to pass. I'm right today.**

## CHAPTER 4

# **On First Nations Australians**

What she has said about the country's oldest communities.

## ON FIRST NATIONS

**I am fed up to the back teeth with the inequalities that are being promoted by the government and paid for by the taxpayer.**

## ON FIRST NATIONS

**I have done research on benefits available only to Aboriginals and challenge anyone to tell me how Aboriginals are disadvantaged when they can obtain three and five per cent housing loans denied to non-Aboriginals.**

**Help will be given on the basis of genuine need, not race. No more special privileges — equal rights for all, and special rights for none. There will be no more taxpayer-funded welcome to country rituals.**

## CHAPTER 5

# **On Climate and Energy Jobs**

What she has said about the industries people work in next.

**That the Senate notes that grocery prices have skyrocketed due to net-zero policies, energy costs, foreign corporate land ownership and massive regulatory costs faced by farmers dealing with red, green, black and blue tape.**

## CHAPTER 6

# **On Health and Science**

What she has said when the evidence was inconvenient.

**I rise to speak to One Nation's legislation to end the pandemic of discrimination against Australians who stood for the right to refuse COVID-19 vaccinations.**

## CHAPTER 7

# **On the Press and Democracy**

What she has said about being asked a question.

ON THE PRESS

**Shamefully, we are now witnessing another trial by media as journalists publish the claims of a Toowoomba woman now accusing Mr Lehrmann of sexual assault.**

## SECTION

# **The voting record**

What she has done about it, every time the Senate divided.

## VOTED VERY STRONGLY FOR
